

DO-IT-YOURSELF MOSQUITO MANAGEMENT

The cost-effective way to manage mosquito menace.

Introducing **LOC Handy Fogging Machine**
for effective Mosquito management

Marketed in India by:

**FOGGERS
INDIA
PVT. LTD.**

The mosquito's bite spreads dangerous illnesses like malaria, dengue, And brain fever, which claim thousands of lives each year.

Effective mosquito management is the need of the hour, and fogging is considered to be highly effective Thermal fogging disturbs the life cycle of the insect and thus destroys mosquitoes which have the potential to multiply. Best results are achieved when such fogging is done in places where mosquitoes breed. And at a time of day when these insects are active-usually in the early morning or late evening hours, and sometimes at night.

Now, Foggers' India puts the power of effective mosquito management in your hands with the LOC Handy Fogging Machine. Easy to use and maintain, this machine is ideal for poultry farms, bungalows, party lawns, housing societies, farm houses, schools, industries, grampanchayats etc.

Empower yourself against the mosquito menace.... today.
